

## New representative in Turkey

In order to strengthen our commitment in Turkey, we are expanding our sales activities with an experienced partner company. From 1 July 2019, employees of Kalebozan Mühendislik Teknoloji Sanayi ve Tic. A.S. from Ankara ensure for more intensive customer support on site and are available as contact persons for the product portfolio of the entire FOERSTER Group.

Kalebozan Mühendislik Teknoloji Sanayi ve Tic. A.S. has been operating in the field of non-destructive testing for more than 23 years. Its activities include the authorized distribution and technical service. Kalebozan has also been designing and manufacturing complete turnkey and customer-specific solutions for 7 years - especially for the defence and tube manufacturing industries. Kalebozan is represented in Ankara (headquarters) and Istanbul. An experienced service team of 4 engineers provides technical support in Turkey and neighbouring regions. Kalebozan's customers include the automotive, aerospace, defence and pipe manufacturing industries.
