

DATALOAD 2

Free software for loading, viewing and converting magnetic field data

Easy transfer and visualization of magnetic field data.

DATALOAD2 is free software for loading, viewing, converting and exporting recorded magnetic field data. It provides essential functions for simple data transfer and visualization of FEREX measurement data and is included with [FEREX 4.034](#).

Recorded magnetic field data can be imported, viewed directly in the software and converted into different file formats.

Various color schemes with up to 1024 colors are available for visualization. Color saturation and the neutral range can be adjusted individually to match the respective measurement data and suppress minor disturbances in the display.

For advanced processing, analysis and management of geophysical survey data, [DATA2LINE](#) provides comprehensive functions for data processing, geo-referencing, visualization, project management and documentation.

YOUR ADVANTAGES AT A GLANCE

Free software: Essential functions for loading, viewing, converting and exporting FEREX magnetic field data

Easy data transfer: Transfer of recorded magnetic field data for further use on a PC

Flexible data conversion: Export of measurement data in TXT, XYZ, UXO and FDL formats

Direct data preview: Visualization of recorded magnetic field data with individually adjustable color schemes

Flexible visualization: Adjustment of color saturation and neutral range to the respective measurement data distribution

Directly available: Included with FEREX 4.034

TECHNICAL INFORMATION

OPERATING SYSTEM:	Windows® 7 / 8 / 10
EXPORT FORMATS:	TXT, XYZ, UXO, FDL
