

TCM BATTERY CHARGER

Keep your TCM batteries charged and ready for use.

Efficient charging for maximum availability. The TCM Battery Charger provides a convenient way to charge spare batteries externally while the TCM remains in use. With two charging bays, it supports both standard and high-capacity batteries, helping ensure charged batteries are ready when needed.

For applications with multiple batteries, up to three 2-bay chargers can be daisy-chained using the integrated DC-out cable. This makes the charger particularly suitable for extended inspection tasks, field use and environments where high device availability is essential.

YOUR ADVANTAGES AT A GLANCE

Two charging bays: Charge up to two TCM batteries simultaneously

Flexible battery support: Compatible with standard and high-capacity TCM batteries

Independent charging: Charge spare batteries externally while the TCM remains in use

Expandable setup: Daisy-chain up to three 2-bay chargers

High availability: Keep spare batteries charged and ready for extended inspection tasks

TECHNICAL INFORMATION

MANUFACTURER:	DURABOOK
PRODUCT:	2-bay battery charger (DC2R1A)
POWER INPUT:	100–240 V, 50–60 Hz, 65 W AC adapter
DIMENSIONS:	5.94 × 6.89 × 2.76 in (W × D × H)
WEIGHT:	1.33 lbs
